1661806	AMAZING
1661920	Pretty good
1662034	Very patient in answering questions both after class and on the slack
1662538	Jane was so helpful! Very generous with her time and very good at explaining things.
1663062	Jane was a fantastic teaching fellow. She helped us with various recitations and grading. I liked the recitations offered on Fridays because they nicely complemented some of the materials we glossed over in the lecture. She was also very responsive on Ed, providing fast feedback and answers to any questions students had online. Last but not least, I appreciated some of the anecdotes she shared with me going from college to industry, and back to school for PhD.
1665669	Jane was great! Always replied to emails immediately and her recitations were great.
1671292	Jane is an excellent TF!
1671851	Jane is very helpful and explains questions clearly.
1671943	The TA is very helpful, responsible, displays a deep understanding of the materials, and always available to support students, particularly for a very challenging course. She provides valuable suggestions and is quick in responding to questions and emails. The TA sections she leads are so useful and directly relevant to the course content.
1672213	Jane was an extremely helpful TF for this class. She held office hours weekly and was very helpful in explaining tricky problems without giving away the answers, and she came to class many days in the semester to help with teaching / recording and was willing to answer questions. Her discussion sections were helpful reviews for much of the class material, and she was able to convey concepts in a clear introductory way while still not eliding any of the more hidden details.
1672424	Strengths: Very helpful and was quick to respond to queries over Ed or email. Generally knew the content well herself and understood the doubts well. Although I had lost interest in the more involved things in the course due to irrelevance to my own research interests, her help allowed me to perform well and get through. Weakness: Nothing in particular. She is the best TA at Yale I have had! Thanks again Jane if you are reading this.
